

Technical cross-section drawing of a road construction detail. The drawing shows a road surface with a 2.5% slope, a central elevation of +0.0, and a bottom elevation of -0.420. A longitudinal drainage ditch is shown on the left side, with a diameter of 150mm and a depth of 400mm. The ditch is filled with sand and covered with geotextile. The road surface is made of concrete slabs (bet. lože C12/15) with a width of 2250mm. The drawing includes various dimensions and labels for materials and construction details.

Labels and dimensions:

- Top dimensions:** 150, 2250, 2250, 150
- Left side dimensions:** 100, 0.01, 50, 100, 250, 100
- Right side dimensions:** 120, 150
- Elevations:** +0.0, +0.06, +0.180, -0.060, -0.350, -0.420, -0.890
- Slopes:** 2.5%, 3.0%
- Materials and Construction:**
  - Silniční obrubník 150x250 do bet. lože C12/15
  - Podélná drenáž z trub PVC flexibilních 150.
  - lože písek, obsyp štěrk fr. 32-63, opláštění geotextilií
- Other labels:** Dla situace, A, B, C

Technical drawing of a cross-section of a concrete slab (B). The drawing shows a cross-section of a concrete slab with a width of 1000 mm and a height of 250 mm. The slab is supported by two walls, each 100 mm thick. The distance between the walls is 800 mm. The slab is reinforced with steel bars (C12/15) and has a 2.5% slope. The drawing includes dimensions for the slab width (1000 mm), height (250 mm), and the distance between the walls (800 mm). It also shows the reinforcement details, including the diameter of the bars (C12/15) and the slope (2.5%).
